Wedding Gown Care - Tip 2, Handling Your Gown Before the Big Day

Hang your gown on the loops sewn into the gown that are connected to the side seams. Do not hang the dress by delicate shoulder straps. Hang it someplace safe – away from sunlight, ventilation ducts and sharp edges.

Remove jewelry that may snag on the dress when handling and protect gown with unbleached muslin gown cover for storage.

Apply perfume and hair sprays before putting the gown on! Also allow these products to dry.
