Remove Our Plastic Wrap FAST

Yes, you want to protect your stored clothes from airborne dust and particulate, but NO, you do not want to use the plastic covers that drycleaners place over your garments. That plastic is strictly designed for short term, in transit protection! Long term use of these plastic covers will suffocate the garment, trapping harmful gases and moisture and very possibly causing staining, mildew or other mishaps.

Always remove the plastic, and to protect your garments, cut a hole in a clean, unbleached white sheet and place that over your stored garments.
