Beware Tooth Care Products

If you're using tooth brightening dental pastes or treatments, use them before you dress in the morning or after you've changed when you get in at night. Why? Because these new toothwhitening products are such effective bleaches that when they splatter on to your clothes they can remove the color! What you may see as a tiny white mark that you think will just brush off, is in fact, a colorless spot. That is permanent!
